

## BLUBONIC D'LIMONENE HIGH PURITY FOOD-GRADE CARE AND HANDLING

**PRECAUTIONS: FLUSH WITH MILD SOAP AND WATER AFTER SKIN CONTACT TO PREVENT TEMPORARY SENSITIVITY. SOLVENT-RESISTANT GLOVES MAY BE WORN DURING PROLONGED USAGE TO PREVENT SENSITIVITY.**

**Storage/shelf life:** For optimal preservation store away from heat and direct sunlight. Containers ship hermetically sealed within 30 days of manufacturing to ensure exceptional freshness. A 'best by' date is recommended two years from the delivery date; however, its active properties remain intact well beyond this point.

**Dilution:** High purity food-grade d'Limonene may be used diluted or undiluted. You may simply blend with water and shake; however, it will quickly separate unless a surfactant of some kind is added (i.e., soap).

**Usage:** Food-grade d'Limonene is a natural compound used for many different purposes so we don't offer usage expertise or application-specific information. If you need assistance with links on the medicinal benefits or with a Google search on a particular topic, we're happy to help!
